

UNDERSTANDING PSYCH NP FOCUS ON PRECEPTORSHIP AND MENTORSHIP

Psych NP Mentorship vs. Clinical Preceptorship Placement

 Psych NP Mentorship (Strategic Solutions-Non-Clinical)	 Clinical Preceptorship (Mindsense Serenity-Clinical)
○ Professional guidance, goal setting, and role readiness. ○ Non-clinical instructions: documentation demos, case discussion, psychopharm review. ○ Prepares students for clinical expectations before practice. ○ No patient case, no EHR documentation, no direct clinical responsibilities. ○ Paid mentorship sessions (non-refundable). ○ Strategic guidance on practice readiness and foundational setup. ○ Not tied to academic requirements ○ Guidance is development only and does not guarantee clinical placement.	○ Hands-on clinical training under supervision ○ Completion of required clinical hours for Psych NP academic programs. ○ Students are paired with Mindsense Serenity <u>ONLY</u> after review, approval, and available clinical slots. ○ Students participate in clinical care according to clinic policy and scope. ○ Paid preceptorship hours (non-refundable) ○ Must follow school requirements, clinical and evaluation standards. ○ Clinical placement decisions are made independently by Mindsense Serenity based on readiness, professionalism, and available clinic Capacity.
